Letter to Parents

Dear Parent/ Guardian,

Your child has been registered on to the Maths website MyMaths.co.uk. This should help them to structure their ILPs and enable you to see how they are progressing. Your child has already been given a letter explaining how to access the materials at home.

To get to the materials you first need to log on to the site.
Go to www.mymaths.co.uk and login at the top of the homepage.

Our **school login** is elmgreen
Our **school password** is school

Every child has been assigned ILPs on Online Homework page. Your child will be directed to do these tasks by their teacher. When you open an Online Homework or Online Worksheet you will be prompted for login details. These are set out below. If you use these the scores will be recorded once you have completed all questions. **The schedules for each year group are attached as a spreadsheet.**

If no lessons are appearing then you have a **Pop-Up Blocker** installed. You **MUST** allow MyMaths.co.uk to use Pop-Ups.

There is a system of Traffic Lights for each of the Worksheets to indicate how successful your child has been.

If a **green light** appears next to a topic, they have good skills in this area.

If **amber light** appears they still have difficulties.

If a **red light** appears they need to go back and relearn the topic. Try the Lessons again.

Access their task sheet on the main menu to find out. You will also find their results here. It will also tell you what questions your child could and couldn't do how many times they have attempted the worksheet and when they last tried it. You can help your child by encouraging them to visit the site and revise for their tests. If you have time, you might want to work through some of the topics with them. The lessons are clear and easy to follow.

An effective strategy is to pretend that you have forgotten how to do it and ask them to show you how. Putting them in the position of "teacher" is good for their confidence and gets them to talk about their thinking.

Please do not hesitate to contact me if you have any more questions.

Ms. S Dhawan

Head of Mathematics
